DETAILED ACTION

Election/Restrictions

1. claims 64-106 are subjected to species election requirement.

Species election

2. This application contains claims directed to the following patentably distinct species of the claimed invention, for examination purpose Applicant is required to elect one species:

A. Claim 74-76, 100-104 recite the following species:

- (i) primer binding domain;
- (ii) transcription domain,
- (iii) a size differentiation domain,
- (iv) an affinity domain,
- (v) a unique sequence domain,
- (vi) a restriction domain.
- (vii) labeling domain;
- (viii) a secondary amplification domain,
- (ix) a sequence primer binding site domain
- (x) combination thereof

B. Claim 79 recites the following species:

- a) nucleic acid ligand
- b) protein ligand
- c) other molecule with an affinity for certain nucleic acids.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (one species from each of the groups A and B) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
